I've been digging for music since I was a kid, when I started partying pretty young and realized I could share my music taste this way I was like lets fucking goooooo!!

2. Describe what it feels like for you when you're "in the zone" ?

I know I'm in the zone when I notice my body is releasing. I start to feel as light as a feather.

3. What's your dream lineup / blunt rotation?

This is so hard!! So MANY people come to mind.. but...Carista, DJ Noir, Lakuti, and Kerri Chandler

4. Upcoming events/ projects /shows?

I'm playing in Columbus, Chicago, and Madison this summer.

Feels good to be making my rounds through the Midwest <3
