April 1 Mercury in Aries goes retrograde. Invasive messages of the past
April 3 Venus conjunct Neptune in Pisces. In it's nature, idealism is uninhibited and fond of scandals. April 5 Venus enters Aries. Optimism never loses. April 8 Total Solar Eclipse in Aries. Fate and destiny. Death and rebirth: I had a dream my baby cousin could start her existence from scratch whenever she felt like it. Consider the albatross. April 10 Mars conjunct Saturn in Pisces. It's getting exhausting, constantly explaining yourself and defending what feeds your desires. April 19 the Sun enters Taurus. Cold clover btwn ur toes. The stirring at the sound of skateboard wheels on jagged pavement. April 20 Jupiter conjunct Uranus in Taurus. The big wheel is picking up more and more debris in its spokes. You're the debris. April 23 full moon in Scorpio. Internal excavations with many short breaks. April 25 Mercury dives headfirst into Aries. Bro, I just ended you, why are you still talking? April 29 Mars and Neptune are conjunct in Pisces. Romantic paranoia and sensual delusions.

May 1 Venus in Gemini squares Pluto in Aquarius. Heady resentments in relationships. Consider looking inward. May 7. New Moon in Taurus. Generalizing your emotions can prove manageable. May 15 Mercury enters Taurus. Hey, pighead! I guess you're right for once. May 18 Venus conjunct Uranus in Taurus. Self-preservation brings you closer to love. A conjunction to Jupiter prompts you to make room in the mirror for other possibilities. A full moon in Sagittarius on May 23 has us pondering the sanctity of objects. May 25 Jupiter enters Gemini. Brain rot takes a sharp left turn. May 31 Mercury conjunct Uranus in Taurus. Heightened intuition not to be confused for psychic attacks.

June 3 Mercury finds home in Gemini. We laugh and laugh and laugh and we can't believe what our minds are capable of. The demented passion doubles when Mercury meets up with Jupiter on June 4. Gemini new moon on June 6. We're transmuting!!! June 9 Mars enters Taurus. Desires find physical gratification. June 11 Mars in Taurus squares Pluto in Aquarius. You are not a God. Humanity will break you down even with your eyes closed. June 12 Mercury in Gemini Squares Saturn in Pisces. Lying by omission is still lying. Take a step back and some time alone. June 16 Venus in Gemini squares Neptune in Pisces. You're not in love with him but the idea of him. Which is just a distorted, idealized version of the self. June 17 Mercury and Venus enter Cancer bringing trepidation towards any sign of discomfort in communication and relationships. June 20 the Sun enters Cancer ringing in the Summer Solstice. Allow yourself to partake in the earthly delights. The longest night of the year is a parting gift from the Sun. June 21 A full moon in Capricorn demands your feelings be recognized.
